Index to Volume 14, Numbers 1–8

VOLUME 14

TITLE INDEX

A crosslinguistic fMRI study of spectral and temporal cues underlying phonological processing. Gandour, J., Wong, D., Lowe, M., Dzemidzic, M., Satthamnuwong, N., Tong, Y., & Li., X. (2002). *JOCN 14*(7), 1076–1087.

A model of prefrontal cortex dopaminergic modulation during the delayed alternation task. Dreher, J.-C., Guigon, E., & Burnod, Y. (2002). *JOCN 14*(6), 853–865.

A neural model of perceptual motor alignment. Guigon, E., & Baraduc, P. (2002). *JOCN 14*(4), 538–549.

Abnormal auditory cortical activation in dyslexia 100 msec after speech onset. Helenius, P., Salmelin, R., Richardson, U., Leinonen, S., & Lyytinen, H. (2002). *JOCN 14*(4), 603–617.

Acoustical vision of neglected stimuli: Interaction among spatially converging audiovisual inputs in neglect patients. Frassinetti, F., Pavani, F., & Ladavas, E. (2002). *JOCN 14*(1), 62–69.

An electrophysiological study of the effects of orthographic neighborhood size on printed word perception. Holcomb, P. J., Grainger, J., & O'Rourke, T. (2002). *JOCN 14*(6), 938–950.

An fMRI study on the time-limited role of the medial temporal lobe in long-term topographical autobiographic memory. Niki, K., & Luo, J. (2002). *JOCN 14*(3), 500–507.

Auditory cortical responses to speech-like stimuli in dislexic adults. Renvall, H., & Hari, R. (2002). *JOCN 14*(5), 757–768.

Auditory peripersonal space in humans. Farne, A., & Ladavas, E. (2002). *JOCN 14*(7), 1030–1043.

Automatic and controlled processing of meolodic contour and interval information measured by electrical brain activity. Trainor, L. J., McDonald, K. L., & Alain, C. (2002). *JOCN 14*(3), 430–442.

Blindsight after optic nerve injury indicates functionality of spared fibers. Wust, S., Kasten, E., & Sabel, B. A. (2002). *JOCN 14*(2), 243–253.

Blindsight modulation of motion perception. Intriligator, J. M., Xie, R., & Barton, J. J. S. (2002). *JOCN 14*(8), 1174–1183.

Book Review: *Altruistically Inclined? The Behavioral Sciences, Evolutionary Theory, and the Origins of Reciprocity*, by Alexander J. Field. Hahn, T. P. (2002). *JOCN 14*(7), 1121–1123.

Categorical perception of happiness and fear facial expressions: An ERP study. Campanella, S., Quinet, P., Bruyer, R., Crommelinck, M., & Guerit, J.-M. (2002). *JOCN 14*(2), 210–227.

Cerebellum and speech perception: A functional magnetic resonance imaging study. Mathiak, K., Hertrich, I., Grodd, W., & Ackermann, H. (2002). *JOCN 14*(6), 902–912.

Changes in the spatial distribution of visual attention after early deafness. Proksch, J., & Bavelier, D. (2002). *JOCN 14*(5), 687–701.

Commentary: Functional MRI in the awake monkey: The missing link. Orban, G. A. (2002). *JOCN 14*(6), 965–969.

Components of switching intentional set. Rushworth, M. F. S., Passingham, R. E., & Nobre, A. C. (2002). *JOCN 14*(8), 1139–1150.

Contribution of the primate superior colliculus to inhibition of return. Dorris, M. C., Klein, R. M., Everling, S., & Munoz, D. P. (2002). *JOCN 14*(8), 1256–1263.

Contributions of subregions of the prefrontal cortex to working memory: Evidence from brain lesions in humans. Muller, N. G., Machado, L., & Knight, R. T. (2002). *JOCN 14*(5), 673–686.

Contributions of the prefrontal cortex and basal ganglia to set shifting. Ravizza, S. M., & Ciranni, M. A. (2002). *JOCN 14*(3), 472–483.

Covert auditory attention generates activation in the rostral/dorsal anterior cingulate cortex. Benedict, R. H. B., Shucard, D. W., Santa Maria, M. P., Shucard, J. L., Abara, J. P., Coad, M. L., Wack, D., Sawusch, J., & Lockwood, A. (2002). *JOCN 14*(4), 637–645.

Covert reorienting and inhibition of return: An event-related fMRI study. Lepsien, J., & Pollman, S. (2002). *JOCN 14*(2), 127–143.

Cross-modal interactions between audition, touch, and vision in endogenous spatial attention: ERP evidence on preparatory states and sensory modulations. Eimer, M., van Velzen, J., & Driver, J. (2002). *JOCN 14*(2), 254–271.

Deactivation of sensory-specific cortex by cross-modal stimuli. Laurienti, P. J., Burdette, J. H., Wallace, M. T., Yen, Y.-F., Field, A. S., & Stein, B. E. (2002). *JOCN 14*(3), 420–429.

Discourse representation in the two cerebral hemispheres. Long, D. L., & Baynes, K. (2002). *JOCN 14*(2), 228–242.

Dissociation of habit-learning in Parkinson's and cerebellar disease. Witt, K., Nuhsman, A., & Deuschl, G. (2002). *JOCN 14*(3), 493–499.

Dissociations in processing past tense morphology: Neuropathology and behavioral studies. Tyler, L. K., deMornay-Davis, P., Anokhina, R., Longworth, C., Randall, B., & Marslen-Wilson, W. D. (2002). *JOCN 14*(1), 79–94.

Electroencephalographic activity in a flanker interference task using Japanese orthography. Yamaguchi, S., Toyoda, G., Xu, J., Kobayashi, S., & Henik, A. (2002). *JOCN 14*(7), 971–979.

Electrophysiological measures of language processing in bilinguals. Mado Proverbio, A., Cok, B., & Zani, A. (2002). *JOCN 14*(7), 994–1017.

EMPATH: A neural network that categorizes facial expressions. Dailey, M. N., Cottrell, G. W., Padgett, C., & Adolphs, R. (2002). *JOCN 14*(8), 1158–1173.

Episodic action for real objects: An ERP investigation with perform, watch, and imagine action encoding tasks versus a non-action encoding task. Senkfor, A. J., Van Petten, C., & Kutas, M. (2002). *JOCN 14*(3), 402–419.

Exploring the activation of semantic and phonological codes during speech planning with event-related brain potentials. Jescheniak, J. D., Schriefers, H., Garrett, M. F., & Friederici, A. D. (2002). *JOCN 14*(6), 951–964.

Extensive individual differences in brain activations associated with episodic retrieval are reliable over time. Miller, M. B., Van Horn, J., Wolford, G. L., Handy, T. C., Valsangkar-Smyth, M., Inati, S., Grafton, S., & Gazzaniga, M. S. (2002). *JOCN 14*(8), 1200–1214.

Figure-ground segregation in a recurrent network architecture. Roelfsema, P. R., Lamme, V. A. F., Spekreijse, H., & Bosch, H. (2002). *JOCN 14*(4), 525–537.

Finding the Self? An event-related fMRI study. Kelley, W. M., Macrae, C. N., Wyland, C. L., Caglar, S., Inati, S., & Heatherton, T. F. (2002). *JOCN 14*(5), 785–794.

fMRI evidence for dual routes to the mental lexicon in visual word recognition. Fiebach, C. J., Friederici, A. D., Muller, K., & von Cramon, D. Y. (2002). *JOCN 14*(1), 11–23.

© 2002 Massachussetts Institute of Technology

fMRI study of cognitive interference processing in females with Fragile X Syndrome. Tamm, L. V., Menon, V., Johnston, C. K., Hessl, D. R., & Reiss, A. L. (2002). *JOCN 14*(2), 160–171.
GABA-ergic modulations of prefrontal spatio-temporal activation pattern during emotional processing: A combined fMRI/MEG study with placebo and lorazepam. Northoff, G., Witzel, T., Richter, A., Gessner, M., Schlagenhauf, F., Fell, J., Baumgart, F., Kaulisch, T., Tempelmann, K., Heinzel, A., Kotter, R., Hagner, T., Bargel, B., Hinrichs, H., Bogerts, B., Scheich, H., & Heinze, H.-J. (2002). *JOCN 14*(3), 348–370.
Hemispheric encoding asymmetry is more apparent than real. Miller, M. B., Kingstone, A., & Gazzaniga, M. S. (2002). *JOCN 14*(5), 702–708.
Hemispheric processing of categorical and coordinate spatial relations in the absence of low spatial frequencies. Okubo, M., & Michimata, C. (2002). *JOCN 14*(2), 291–297.
Hypnosis modulates activity in brain structures involved in the regulation of consciousness. Rainville, P., Hofbauer, R. K., Bushnell, M. C., Duncan, G. H., & Price, D. D. (2002). *JOCN 14*(6), 887–901.
Impact of fMRI acoustic noise on the functional anatomy of visual mental imagery. Mazard, A., Mazoyer, B., Etard, O., Tzourio-Mazoyer, N., Kosslyn, S. M., & Mellet, E. (2002). *JOCN 14*(2), 172–186.
Impaired recognition of social emotions following amygdala damage. Adolphs, R., Baron-Cohen, S., & Tranel, D. (2002). *JOCN 14*(8), 1264–1274.
Increased brain activity in frontal and parietal cortex underlies the development of visuospatial working memory capacity during childhood. Klimberg, T., Forssberg, H., & Westerberg, H. (2002). *JOCN 14*(1), 1–10.
Intact motor imagery in chronic upper limb hemiplegics: Evidence for activity-independent action representation. Johnson, S. H., Sprehn, G., & Saykin, A. J. (2002). *JOCN 14*(6), 841–852.
Is the human amygdala critical for the subjective experience of emotion? Evidence of intact dispositional affect in patients with amygdala lesions. Anderson, A. K., & Phelps, E. A. (2002). *JOCN 14*(5), 709–720.
Localization of executive functions in dual-task performance with fMRI. Szameitat, A. J., Schubert, T., Muller, K., & von Cramon, D. Y. (2002). *JOCN 14*(8), 1184–1199.
Masking interrupts figure-ground signals in V1. Lamme, V. A. F., Zipser, K., & Spekreijse, H. (2002). *JOCN 14*(7), 1044–1053.
Mechanisms underlying spatial representation revealed through studies of hemispatial neglect. Behrmann, M., Ghiselli-Crippa, T., Sweeney, J. A., Di Matteo, I., & Kass, R. (2002). *JOCN 14*(2), 272–290.
Meeting Report: Choosing the right MR tools for the job. Fitzpatrick, S. M., & Rothman, D. L. (2002). *JOCN 14*(5), 806–815.
Modality-specific deterioration in naming verbs in nonfluent, primary progressive aphasia. Hillis, A. E., Tuffiash, E., & Caramazza, A. (2002). *JOCN 14*(7), 1099–1108.
Models of functional organization of lateral prefrontal cortex in verbal working memory: Evidence in favor of the process model. Barde, L. H. F., & Thompson-Schill, S. (2002). *JOCN 14*(7), 1054–1063.
Modulation of amygdalar activity by the conscious regulation of negative emotion. Schaefer, S. M., Jackson, D. C., Davidson, R. J., Aguirre, G. K., Kimberg, D. Y., & Thompson-Schill, S. L. (2002). *JOCN 14*(6), 913–921.
Modulation of auditory cortex during speech: An MEG study. Houde, J. F., Nagarajan, S. S., Sekihara, K., & Merzenich, M. M. (2002). *JOCN 14*(8), 1125–1138.
Modulation of induced gamma band responses in a perceptual learning task in the human EEG. Gruber, T., Muller, M. M., & Kreil, A. (2002). *JOCN 14*(5), 732–744.
Modulation of the visual word retrieval system in writing: A functional MRI study on the Japanese orthographies. Nakamura, K., Honda, M., Hirano, S., Oga, T., Sawamoto, N., Hanakawa, T., Inoue, H., Ito, J., Matsuda, T., Fukuyana, H., & Shibasaki, H. (2002). *JOCN 14*(1), 104–115.
Morphological priming in Spanish verb forms: An ERP repetition priming study. Rodriguez-Fornells, A., Munte, T. F., & Clahsen, H. (2002). *JOCN 14*(3), 443–454.
Multiple movement representations in the human brain: An event-related fMRI study. Toni, I., Shah, N. J., Fink, G. R., Thoenissen, D., Passingham, R. E., & Zilles, K. (2002). *JOCN 14*(5), 769–784.
Neural basis of the retrieval of people's names: Evidence from brain-damaged patients and fMRI. Tsukiura, T., Fujii, T., Fukatsu, R., Otsuki, T., Okuda, J., Umetsu, A., Suzuki, K., Tabuchi, M., Yanagawa, I., Nagasaka, T., Kawashima, R., Fukuda, H., Takahashi, S., & Yamadori, A. (2002). *JOCN 14*(6), 922–937.
Neural correlates of British Sign Language comprehension: Spatial processing demands of topographic language. MacSweeney, M., Woll, B., Campbell, R., Calvert, G. A., McGuire, P. K., David, A. S., Simmons, A., & Brammer, M. J. (2002). *JOCN 14*(7), 1064–1075.
Neural differentiation of lexico-syntactic categories or semantic features? Event-related potential evidence for both. Kellenbach, M. L., Wijers, A. A., Hovius, M., Mulder, J., & Mulder, G. (2002). *JOCN 14*(4), 561–577.
Neural specialization for letter recognition. Polk, T. A., Stallcup, M., Aguirre, G. K., Alsop, D. C., D'Esposito, M., Detre, J. A., & Farah, M. J. (2002). *JOCN 14*(2), 145–159.
Neural substrates of action event knowledge. Kable, J. W., Lease-Spellmeyer, J., & Chatterjee, A. (2002). *JOCN 14*(5), 795–805.
Neural systems for visual orienting and their relationships to spatial working memory. Corbetta, M., Kincade, J. M., & Shulman, G. L. (2002). *JOCN 14*(3), 508–523.
New Perspectives in fMRI Award: Commentary on "Functional MRI and the study of human consciousness" by Daniel Lloyd. Mechelli, A. (2002). *JOCN 14*(6), 834–835.
New Perspectives in fMRI Award: Focusing on the big picture with fMRI: Consciousness and temporal flux. Hazeltine, E. (2002). *JOCN 14*(6), 836–837.
New Perspectives in fMRI Award: Functional MRI and the study of human consciousness. Lloyd, D. (2002). *JOCN 14*(6), 818–831.
New Perspectives in fMRI Award: Maturing as a science: The New Perspectives in fMRI Research Award. Van Horn, J. D. (2002). *JOCN 14*(6), 817.
New Perspectives in fMRI Award: Streams of consciousness. Ishai, A. (2002). *JOCN 14*(6), 832–833.
New Perspectives in fMRI Award: On having one's data shared. Postle, B. R., Shapiro, L. A., & Biesanz, J. C. (2002). *JOCN 14*(6), 838–840.
Object activation from features in the semantic system. Kraut, M. A., Kremen, S., Segal, J. B., Calhoun, V., Moo, L. R., & Hart, J., Jr. (2002). *JOCN 14*(1), 24–36.
Object activation in semantic memory from visual multimodal feature input. Kraut, M. A., Kremen, S., Moo, L. R., Segal, J. B., Calhoun, V., & Hart, J., Jr. (2002). *JOCN 14*(1), 37–47.
Paradoxical interhemispheric summation in the split brain. Corballis, M. C., Hamm, J. P., Barnett, K. J., & Corballis, P. M. (2002). *JOCN 14*(8), 1151–1157.
Patterns of bimanual interference reveal movement encoding within a radial egocentric reference frame. Swinnen, S. P., Dounskaia, N., & Duysens, J. (2002). *JOCN 14*(3), 463–471.
Perceptual priming versus explicit memory: Dissociable neural correlates at encoding. Schott, B., Richardson-Klavehn, A., Heinze, H.-J., & Duzel, E. (2002). *JOCN 14*(4), 578–592.

Rethinking feelings: An fMRI study of the cognitive regulation of emotion. Ochsner, K. N., Bunge, S. A., Gross, J. J., & Gabrieli, J. D. E. (2002). *JOCN 14*(8), 1215–1229.
Saccadic inhibition in voluntary and reflexive saccades. Ringold, E. M., & Stampe, D. M. (2002). *JOCN 14*(3), 371–388.
Searching with unilateral neglect. Pavlovskaya, M., Ring, H., Groswasser, Z., & Hochstein, S. (2002). *JOCN 14*(5), 745–756.
Selectively impaired associative learning in older people with cognitive decline. Collie, A., Myers, C., Schnirman, G., Wood, S., & Maruff, P. (2002). *JOCN 14*(3), 484–492.
Semantic category interference in overt picture naming: Sharpening current density localization by PCA. Maess, B., Friederici, A. D., Damian, M., Meyer, A. S., & Levelt, W. J. J. (2002). *JOCN 14*(3), 455–462.
Separate influences of acoustic AM and FM sensitivity on the phonological decoding skills of impaired and normal readers. Witton, C., Stein, J. F., Stoodley, C. J., Rosner, B. S., & Talcott, J. B. (2002). *JOCN 14*(6), 866–874.
Separating storage from retrieval dysfunction of temporal memory in Parkinson's Disease. Malapani, C., Deweer, B., & Gibbon, J. (2002). *JOCN 14*(2), 311–322.
Serial attention mechanisms in visual search: A direct behavioral demonstration. Bricolo, E., Gianesini G., Fanini, A., Bundesen, C., & Chelazzi, L. (2002). *JOCN 14*(7), 980–993.
Specialization of neural mechanisms underlying face recognition in human infants. De Haan, M., Pascalis, O., & Johnson, M. H. (2002). *JOCN 14*(2), 199–209.
Split-second sequential selective activation in human secondary visual cortex. Kenemans, J. L., Lijffijt, M., Camfferman, G., & Verbaten, M. N. (2002). *JOCN 14*(1), 48–61.
Stereoscopic illusory contours: Cortical neural responses and human perception. Heider, B., Spillmann, L., & Peterhans, E. (2002). *JOCN 14*(7), 1018–1029.
Striatal contributions to cognition: Working memory and executive function in Parkinson's Disease before and after unilateral posteroventral pallidotomy. Jahanshahi, M., Rower, J., Saleem, T., Brown, R. G., Limousin-Dowsey, P., Rothwell, J. C., Thomas, D. G. T., & Quinn, N. P., (2002). *JOCN 14*(2), 298–310.
Supramodal effects of covert spatial orienting triggered by visual or tactile events. Macaluso, E., Frith, C. D., & Driver, J. (2002). *JOCN 14*(3), 389–401.
Sustained mnemonic response in the human middle frontal gyrus during on-line storage of spatial memoranda. Leung, H.-C., Gore, J. C., & Goldman-Rakic, P. S. (2002). *JOCN 14*(4), 659–671.
Testing for dual brain processing routes in reading: A direct contract of Chinese character and Pinyin reading using fMRI. Chen, Y., Fu, S., Iverson, S. D., Smith, S. M., & Matthews, P. M. (2002). *JOCN 14*(7), 1088–1098.
Testing memory for unseen visual stimuli in patients with extinction and visual neglect. Vuilleuimer, P., Schwartz, S., Clarke, K., Husain, M., & Driver, J. (2002). *JOCN 14*(6), 875–886.
Testing the efficiency and independence of attentional networks. Fan, J., McCandliss, B. D., Sommer, T., Raz, A., & Posner, M. I. (2002). *JOCN 14*(3), 340–347.
The influence of working memory demand and subject performance on prefrontal cortical activity. Rypma, B., Berger, J. S., & D'Esposito, M. (2002). *JOCN 14*(5), 721–731.
The neural correlates of grammatical gender: An fMRI investigation. Miceli, G., Turriziani, P., Caltagirone, C., Capasso, R., Tomaiuolo, F., & Caramazza, A. (2002). *JOCN 14*(4), 618–628.
The psychophysiology of real-time financial risk processing. Lo, A. W., & Repin, D. V. (2002). *JOCN 14*(3), 323–339.
The quantitative nature of a visual task differentiates between ventral and dorsal stream. Fias, W., Dupont, P., Reynvoet, B., & Orban, G. A. (2002). *JOCN 14*(4), 646–658.
The response of left temporal cortex to sentences. Vandenberghe, R., Nobre, A. C., & Price, C. J. (2002). *JOCN 14*(4), 550–560.
The timing of action-monitoring processes in the anterior cingulate cortex. Van Veen, V., & Carter, C. S. (2002). *JOCN 14*(4), 593–602.
Theta oscillations and human navigation: A magnetoencephalography study. de Araujo, D. B., Barra, O., & Wakai, R. T. (2002). *JOCN 14*(1), 70–78.
Transcranial magnetic stimulation of the human frontal eye-field: Effects on visual perception and attention. Grosbras, M.-H., & Paus, T. (2002). *JOCN 14*(7), 1109–1120.
Two corticotectal areas facilitate multisensory orientation behavior. Juang, W., Jiang, H., & Stein, B. E. (2002). *JOCN 14*(8), 1240–1255.
Visual categorization and object representation in monkeys and humans. Sigala, N., Gabbiani E., & Logothetis, N. K. (2002). *JOCN 14*(2), 187–198.
Visualizing the neural bases of a disconnection syndrome with diffusion tensor imaging. Molko, N., Cohen, L., Mangin, J. F., Chochon, F., Lehericy, S., Le Bihan, D., & Dehaene, S. (2002). *JOCN 14*(4), 629–636.
Wada testing reveals frontal lateralization for the memorization of words and faces. Kelley, W. M., Ojemann, J. G., Wetzel, R. D., Derdeyn, C. P., Moran, C. J., Cross, D. T., Dowling, J. L., Miller, J. W., & Peterson, S. E. (2002). *JOCN 14*(1), 116–125.
When action turns into words: Activation of motor-based knowledge during categorization of manipulable objects. Gerlach, C., Law, I., & Paulson, O. B. (2002). *JOCN 14*(8), 1230–1239.
Working memory and the suppression of reflexive saccades. Mitchell, J. P., Macrae, C. N., & Gilchrist, I. D. (2002). *JOCN 14*(1), 95–103.
